Allergy Antidotes™

What's New?

Quick Reference Guide to Clearing the Emotional Aspects of Allergies

I developed the *Quick Reference Guide to Clearing the Emotional Aspects of Allergies* to offer a quick summary of all my diagnostic and treatment techniques presented at my intensive 2-day workshops. Colorful photos are used to demonstrate muscle testing and several treatments from my Basic and Advanced Manuals, as well as new procedures not contained in either manual. The *Quick Reference Guide* is printed on both sides of a regular sized (8 1/2" x 11") page. It can be hole-punched to fit in your binder or hung on a wall for easy accessibility and is laminated for durability and long term use as a ready-reference tool.

Price: \$10.

Allergy Antidotes-
Quick Reference Guide to
Clearing the Emotional Aspects of Allergies

I. MUSCLE TESTING – IDENTIFICATION OF ALLERGIC SUBSTANCES

Muscle Test Preparation		Wrist over Wrist
Muscle Test Calibration	Say... "My name is _____" → Strong Say... "My name is Ben Franklin" → Weak Think... of something wonderful → Strong Think... of something terrible → Weak Think... of someone you love → Strong Think... of someone who upsets you → Weak Say... "yes" → Strong Say... "no" → Weak	
Muscle Test Troubleshooting	 	Spindle Cell Technique Increased Accuracy Muscle Test
Blocks to Treatment	I am alive – Part of me is not here • All my cells are alive – Some of my cells did not survive • I feel safe – I feel fearful • All of my cells are safe – Some of my cells are fearful	
What to Test	Core Collection (Main category/ingredients), water, elements, foods (especially favorites), medications (past and present), supplements, detergents, books, air in home, school or office, infections (past or present), personal hygiene products	
Detective Work	Where / when symptoms started? • What did / do you eat / smell / touch / inject? • What changed in your life? What infections did / do you have? • What medications did / do you take?	
Identify Sensitivity	Put in energy field → Hold substance → Hold energy frequency vial → Hold paper with word → Think about substance	Find Hidden Sensitivities Put on place of problem → Touch emotional points on forehead → Use Awareness Mode: fist with thumb inside → Check ingredients → Check in combination
Check severity	4 - Ring finger and thumb - Severe 3 - Middle finger and thumb - Moderate 2 - Index finger and thumb - Mild 1 - Open hand - Very mild

Allergy Antidotes-
Quick Reference Guide to
Clearing the Emotional Aspects of Allergies

II. TREATMENT – AFTER SENSITIVE SUBSTANCE IS FOUND

Spinal Release

1. Hold substance to be treated in energy field.
2. Tap along both sides of spine from base of neck to below shoulder blades.
3. Tap one round for each of the following: Take deep breath and hold • Blow out and do not breathe • Hyperventilate • Breathe normally • Eyes in a circle • Eyes in circle the other way • Close eyes • Eyes in circle one way • Eyes in circle the other way

Laser Spray

1) Hold substance to be treated in energy field. 2) Spray laser beam over every part of both ears. 3) You can also spray the laser on both hands and feet.

EFT
Even though... I have a bad reaction to... / I choose...
My body doesn't absorb... to have my body absorb... easily.
I have traumas associated with... to release... from my bad memory.
My body views... as dangerous... for my body to view... as safe.

Body Talk

1. Hold substance to be treated in energy field.
2. Tap on both hemispheres of brain – breathe in.
3. Tap slightly left of sternum – breathe out.
4. Repeat several times.

Holloway Technique

1. Hold substance to be treated in energy field.
2. Tap down the sides of the body along spleen meridian.
3. Tap one round for each of the following: Take deep breath and hold • Blow out and do not breathe • Hyperventilate • Breathe normally • Eyes in circle one way • Eyes in circle the other way • Close eyes • Eyes in circle one way • Eyes in circle the other way • "Optional"

Karate Chop 33

1. Hold substance.
2. Put both hands in a fist with thumbs inside.
3. Tap outside of hands together 33 time

Laser EFT

Spray laser on both ears and back of head (brain stem) while tap top of head using Body Talk positions • Have patient repeat EFT affirmation statements • Treat until muscle test is strong • Check – Treatment is complete, complete 100%, complete 100% in future

Emotional Sensitivity Treatment
• Touch forehead to check emotional involvement (look for change in muscle test)
• Muscle test Emotion Collection: Abandonment—Anger—Anxiety—Apathy—Betrayal—Confusion—Depression—Deprivation—Despair—Disappointment—Discouragement—Disgust—Disillusionment—Envy—Fear—Frustration—Grief—Guilt—Hated—Helplessness—Hopelessness—Jealousy—Joy—Panic—Rage—Rejection—Resentment—Sadness—Shame—Terror
• Muscle test for age and specific trauma situation • Touch hand to forehead and treat using above techniques while focused on situation

WHAT PEOPLE ARE SAYING ABOUT **Allergy Antidotes™**

“I want to thank you for having such a wonderful and informative workshop!! You are very inspiring!! It was great meeting you and seeing you work. Thank you for being so generous in sharing your knowledge with others.”

Diane Thal Gluck – Ann Arbor, Michigan
Participant at Gaithersburg, Maryland Allergy Antidotes
Basic Training September 2003

“Sandi Radomski translated the theories of NAET into the Energy Psychology language that a psychotherapist could easily grasp. Sandi’s “Allergy Antidotes” need to be integrated into EVERY Energy Psychology method. It is a major step forward in a language that psychotherapists and clients can understand and USE themselves – in and outside of the therapy room.”

Don Elium, MA, MPT
Director, Energy Toxin Research in Psychotherapy Website

“I give you a gift and her name is Sandi Radomski... She has created a professional, easy to understand manual that is a MUST READ for serious students of these procedures.”

Gary Craig, Creator of Emotional Freedom Technique

“I wouldn’t like to be without lasers because they really seem to reach parts that other energy therapies don’t.”

Willem Lammers, PhD -- Psychologist, Certified Trauma Therapist
Switzerland

“I am appreciative of all the work you’ve been doing and continue to do. eTox work has enriched my life and the lives of my clients enormously. It’s exciting to be a part of the healing that’s possible now – and the lasting effects of the work I do.”

Rosemarie Hazen, Therapist
Eugene, Oregon

“I got your manual in the mail yesterday and read it cover to cover. Fantastic! It is so well put together and clear. There is a generous and warm spirit throughout. Thank you for sharing your brilliance in such a practical way!”

Abbie Conat
Professor of Trombone, Germany

“I love Sandi’s book and use it as my ‘Bible’ – the charts are fantastic!”

Dona Bilangi, Holistic Health Practitioner
Troy, Michigan

“I found Sandi’s manual to be clear, concise and very easy to follow. Her diagrams are excellent. These methods have changed my life and that of my family, friends and clients.”

Gail Lague -- Carolina, Rhode Island

“I am almost finished with studying your two manuals. They are such great teaching tools, clearly put together and filled with such good info. They show that you really want readers to get as much info as possible from them and you have included many different ways to get the same result.”

Carol Shea – Charlotte, North Carolina

Allergy Antidotes™

DVDs and Special Sets

Allergy Antidotes-EFT Treatment of Allergies \$30

A DVD is now available to help people learn some of the **Allergy Antidotes** treatment techniques. The video was recorded during Gary Craig's 2003 EFT conference in Flagstaff, Arizona. Included are more than 2 hours of Sandi Radomski's talk and demonstration on using EFT to identify and treat environmental sensitivities.

Some topics covered on the DVD are:

- Using EFT to Reprogram the Body to no Longer React to the Problem Substance
- How and Why Allergies are Increasing
- The *Rain Barrel Effect* and What to Do About It
- 18 Common Allergy-like Reactions
- How Some Emotional Symptoms Have a Physiological Basis
- How the Body Wrongly Identifies a Substance as a Danger to Its Existence
- Identifying Allergy-like Reactions
- How Inside Air Pollution is 2-5 Times Greater than Outside Air Pollution
- The Top 6 Toxins
- The Top 7 Reactive Foods
- Basic Treatments and "Surrounding The Dragon"

This DVD is a useful review and reference for experienced practitioners, as well as an opportunity for anyone who hasn't yet taken one of my **Allergy Antidotes** training workshops, to learn the basics of allergy work.

Allergy Antidotes™

MANUALS

Allergy Antidotes Basic Manual

\$30

Energy Psychology Treatment of Allergy-like Reactions

In our current environment, allergy-like reactions are causing an increase in both physical and emotional symptoms. These symptoms can now be treated using non-invasive, easy to use, Energy Psychology techniques. In the Basic manual, **Allergy Antidotes - Energy Psychology Treatment of Allergy-like Reactions**, you will learn to reprogram your client's body to overcome negative reactions to various substances. The manual is divided into three sections. It first offers a way to think about allergy-like reactions so you can determine whether sensitivities to various substances may be the cause of the presenting symptoms. The second section teaches you the steps for muscle testing to identify which substances weaken your client's energy system. These substances can then be avoided. When it is difficult or impossible to avoid a substance, the third section introduces treatment techniques. Energy treatments balance the body in relation to the offending substance, thereby eliminating the reaction. Several treatment protocols are presented including Spinal Release, Laser Spray, EFT, Body Talk and Holloway Technique. Advanced protocols address the emotions and trauma memories maintaining the allergy-like reactions. Self-treatment procedures are also included. Excerpts of this manual are available on my website at www.allergyantidotes.com.

The goal of this manual is to prepare the reader to integrate Energy Psychology treatments for substance sensitivities into their practice. Many people report feeling competent to identify and treat substance sensitivities merely from reading this manual.

The Energy Toxin Research discussion list is dedicated to promoting exchange of information regarding identifying and treating substance sensitivities. Visit www.eToxResearch.com for information about joining the list.

Manual Básico de Antidotas para las Alergias \$30

Tratamiento de psicología energética para todas las reacciones de tipo alérgico

This 109 page manual is nearly identical in scope and content to the English version of my Basic Manual (a small section omitted in the Spanish version is included as a separate addendum). Bonus material in this version of the manual is the addition of 8 pages of acupuncture diagrams inserted by John Hartung as used in Steve Reed's ReMap Process.

Allergy Antidotes Advanced Procedures Manual \$40

The *Advanced Procedures* manual combines the latest and most effective Energy Psychology procedures available. It contains new testing methods, new research findings, and a large section on the treatment of autism. It includes completely new material as well as information I have been sharing in my trainings but which is not included in my Basic manual. The *new* LaserLight Technique™ is introduced, using the eTox Laser to balance the body structurally, chemically, emotionally, and spiritually. I see the Advanced Procedures manual as the natural progression after the Basic manual.

Allergy Antidotes™

eTOX LASERS

Laser Spray Technique

Laser Spray is one of the newest concepts in Energy Psychology. It entails stimulating reflex points on the ears, hands and feet with a laser beam to balance the body's energy system in relation to an energy toxin. The energy toxin can be a reactive substance, negative emotion or thought, or traumatic scene. Slowly spray the laser beam over the entire ears, hands, and/or feet while patient is holding or thinking about the energy toxin. The Laser Spray is also used on the third eye point. It can be used to spray the bladder meridian along the spine. Laser Spray on brain points has been very useful for autistic and brain damaged patients.

eTox Laser

\$59

The eTox Laser is 635nm, the *exact* frequency of a healthy living cell. In acupuncture, a laser beam at 635nm is equivalent to using a needle.

Advanced Laser

\$195

The Advanced Laser is also 635nm. An added feature is its On/Off switch, which frees you from having to continually press a button to shine the laser. Another plus is a wider beam than the eTox Laser, making it possible to cover a larger area at one time. Numerous healing experiences have been reported from using the Advanced Laser with Allergy Antidote's *new* LaserLight Technique™ (detailed in the Allergy Antidotes Advanced Procedures Manual). It is also helpful for skin conditions such as mosquito bites, psoriasis and fascia.

Liquid Laser Tube

\$10

The Liquid Laser Tube is imprinted with the laser beam from the powerful 635nm Erchonia Laser (the first laser approved by the FDA as a medical device). Treatment consists of holding the Liquid Laser Tube at the place of pain to reduce symptoms. People have reported success from using the Liquid Laser Tube in eliminating rheumatoid arthritis, and chronic pain in the hip, heel, and back.

The Liquid Laser Tube is a remarkably effective, reasonably priced way to access the healing power of the \$7,000 Erchonia Laser.

Allergy Antidotes™

ENERGY FREQUENCY TUBES

The **Allergy Antidotes** Energy Frequency Tubes are used for allergy testing and treatment. They are filled with water and alcohol embedded with the electromagnetic energy of the desired substance. The patient holds the **Allergy Antidotes** to put the substance in their energy field. The body's reaction to the substance can then be muscle tested. **Allergy Antidote** tubes are amplified 10 times the intensity of the original substance in order to uncover hidden sensitivities and more permanently clear the patient of any negative reactions. Once the substance sensitivity is identified, various energy treatments can be utilized. The patient continues to hold the tube throughout testing and treatment.

Allergy Antidotes tubes can be purchased in various collections of related substances. Ten collections of **Allergy Antidote** Energy Frequency Tubes are available at this time.

- *Expanded* Core Collection
- Basic Body Collection
- Foods Collection
- Emotion Collection
- Neurotransmitters and Digestive Enzymes Collection
- Vaccines and Heavy Metals Collection
- B Vitamins and Minerals Collection
- Autism Additions Collection
- Essential Nutrients of Life
- Immune System Series (Created for Seemorg Matrix Work)

In addition, there are several mini-packets:

- Additional Emotions
- Elements
- Infection Connection

Individual tubes may be ordered for any of the substances listed.

Allergy Antidotes™

27. Staphylococcus/Streptococcus
28. Titanium/Surgical Steel
29. Virus Mix
30. Vitamins A,E,D,K

Allergy Antidotes™

EXPANDED CORE COLLECTION INGREDIENTS

1. **Egg/Chicken Mix:** egg yolk, egg white, chicken, tetracycline.
2. **Calcium/Milk Mix:** cal-carbonate, cal-glutinate, cal-ascorbate, cal-citrate, cow's milk, goat's mix, milk casein, milk-albumin.
3. **Vitamin C Mix:** ascorbic acid, oxalic acid, citrus mix, berry mix, fruit mix, vegetable mix, vinegar mix, chlorophyll, hesparin, rutin, bioflavonoids.
4. **B-Complex Mix:** B-1, 2, 3, 4, 5, 6, 12, 13, 15, 17, paba, inositol, choline, biotin, folic acid.
5. **Sugar Mix:** cane sugar, beet sugar, brown sugar, corn sugar, rice sugar, maple sugar, molasses, honey, fruit sugar, sucrose, glucose, dextrose, maltose, lactose, date sugar, grape sugar.
6. **Mineral Mix:** magnesium, manganese, phosphorus, selenium, zinc, copper, cobalt, chromium, trace minerals, gold, fluoride, iron.
7. **Heavy Metal Mix:** mercury, lead, cadmium, aluminum, arsenic, copper, gold, silver, vanadium, titanium, zinc, surgical steel, antimony, beryllium.
8. **Toxic Chemical Mix:** styrene, 1,2-dichlorobenzene, OCDD (dioxin), HxCDD (dioxin), xylene, benzene, formaldehyde, plastic.
9. **Petrochemical Mix:** petroleum, motor oil, diesel oil, car exhaust, asbestos, acetone, chlorine, ether, paint, turpentine, hydrocarbons, heating fuel.
10. **Pesticide Mix:** DDT, DDE, malathion, chlordane, paraquat, diazinon, atrazine.
11. **Vaccine Mix:** MMR, MMR2, DPT, tetanus, smallpox, polio (Salk), polio (Sabin), flu 1999.
12. **Enhancer:** RNA/DNA, acid/base, blood, immune system, sympathetic/parasympathetic systems
13. **Blood**
14. **Candida Mix:** candida albicans, candida rugosa, candida tropicalis, candida pseudotropicalis, candida parapsiliosis, candida lusitaniae, candida guilliermondi.
15. **Chocolate/Caffeine/Coffee**
16. **Cleaning Chemical Mix:** soaps, detergents, cleansing chemicals, chlorine, clorox, bleach.
17. **Dust/Dust Mites**
18. **Formaldehyde**
19. **Hormone Mix:** estrogen, progesterone, testosterone
20. **Mold Mix:** absidia cornymbipera, aflatoxin, alternaria tenius, asperillus fumigatus, aspergillus niger, cephalosporium, helminthosporium satium, penicillum roquefort, trichophyton mix
21. **Neurotransmitters:** serotonin, dopamine, histidine, histamines, acetylchlorine, cholinesterase, norepinephrine, phenylalaline, pentamidine
22. **Newspaper/Newspaper Ink**
23. **Perfume Mix**
24. **Pollen/Weeds/Grass/Trees**
25. **RNA/DNA**
26. **Smoking/Tobacco**
27. **Staphylococcus/Streptococcus**
28. **Titanium/surgical steel**
29. **Virus Mix:** E.B.V., C.M.V., hepatitis 1,2,6, herpes zoster, influenza, enterovirus, lyme disease
30. **Vitamins A, E, D, K**

REMEDY MAKERS

Eagle Pro Remedy Maker & Twin Wand Attachment

The “**Pro Remedy Maker**” transfers electromagnetic frequency information from an Input area to an Output area and electronically imprints it in water. The **Pro** puts the desired frequency directly into the person’s body on a continuous basis.

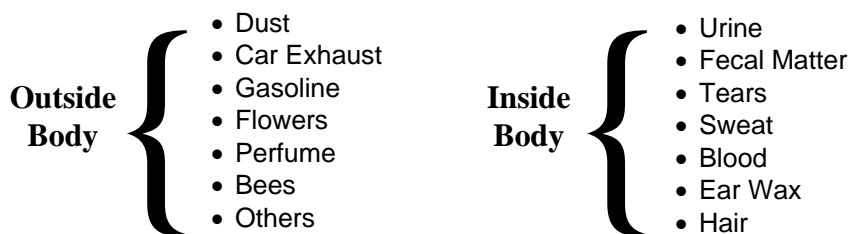

Functions:

1. *Copies* (duplicates) frequency of substance.
2. *Boosts* (potentizes) information to produce a homeopathic antidote to the original substance 4x, 10x, 30x, and 200x.

In less than 10 seconds you can:

1. Create duplicate tubes to give to patients so they can self-treat at home.
2. Create combination vials for patients to take home.
3. Create energy frequency tubes from sample of substance (i.e. house dust, mold, dog hair, local pollen).
4. Create liquid formulas, especially for those with difficulty swallowing. Copy medications or supplements into water.
5. Create homeopathic antidotes for reactive substances (can be ingested, rubbed on skin, placed on body, or treated).

ANYTHING can be duplicated or made into a remedy:

Twin Ray Wand Attachment

The versatile TWIN RAY WAND attaches to the Eagle Pro to direct the frequency to a specific point on the body or into the environment. The TWIN RAY tool produces two therapeutic light beams at specific frequencies. The light penetrates the skin, stimulates the body's immune system, and accelerates the body's ability to regenerate. Running the TWIN RAY from the Eagle Pro Remedy Maker frequency generator allows you to create remedies that complement the fixed frequencies of the infrared and LED light beams.

Price: \$629 Twin Ray Wand Attachment and Eagle Pro Remedy Maker

Eagle "Guardian"

The **Eagle Guardian Homeopathic Imprinter and Potentizer** provides a safe, non-invasive, profoundly effective way to restore and balance the body's bioenergetic pathways. The Guardian could restore and bring health to millions of people and is being hailed as one of the most exciting and promising discoveries in the field of bioenergetics and vibrational medicine. Unknown to most, vibrational medicine is one of the most, if not the most widely studied field of medicine today. The new Eagle Guardian reflects our motto..."Excellence Through Research."

With this new instrument and procedure, it is possible to imprint and greatly amplify the body's vibrational signature and apply it back into the body in such a way as to stimulate restorative and healing processes. It is as if the Guardian provides the body with a clear signal /roadmap to the underlying causes of imbalance, - harmful degenerative processes, micro-organisms, parasites, toxins, deficiencies, etc. Once the body has a clear signal it can activate numerous healing processes with amazing results and positive health improvements.

With the Guardian, it takes only seconds to imprint the body's vibrational signature, multiply it and send it back into the body. The Guardian's ease of use and versatility allow for various methods of signal application and a wide spectrum of uses.

Advantages to using the Eagle Guardian:

1. The body's vibrational signals can be identified and imprinted over and over again, maintaining the remedy's accuracy and effectiveness.
2. A number of conditions can be treated simultaneously.
3. Nothing has to be ingested.
4. This method represents tremendous savings in time and expense.

The Guardian is in a league all its own - it stands as the highest level of subtle technology currently available. Each instrument comes with an Operator's Manual which provides some interesting and valuable instructions on how to get started with your new Guardian. Written by a Doctor with much experience with this technology you will be up and running within hours. A contact phone number is also provided for consultations with a healthcare professional with experience in this field of vibrational medicine and the use of the Eagle Guardian. This service is provided to all our customers on a cost free basis.

Price: \$879.
